Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. This Office action is in response to the amendment filed 11/09/05. Claims 2-10, 12 and 16-27 are pending with claims 2-10 and 12 having been withdrawn from consideration for being directed to a non-elected species.

2. Applicant's argument that claims 2-10 and 12 were improperly withdrawn from consideration is acknowledged but is not found persuasive. In the response to the restriction requirement received 05/06/05 applicant elected the species of Figures 9(A)-9(D). As noted in the Office action mailed 07/28/05 applicant did not distinctly and specifically point out any supposed errors in the restriction requirement. As such, the requirement was considered made without traverse. The examiner acknowledges that the specification at page 10, lines 5 and 6 provides support for such a hybrid species as that of Figures 9(A)-9(D) further including raised portions. However, such a hybrid species is not shown in the figures, and if were, it too would have been subject to the restriction requirement. The species of Figures 9(A)-9(D) including raised portions is considered non-elected. Claims 2-10 and 12 remain withdrawn from consideration. The requirement is still deemed proper and is therefore made FINAL.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 16-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter

which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is an inadequate written description of a third plate having plural ribs and connecting the first and second plate wherein an outermost rib of the third plate connects a midway portion of the first plate and an end portion of the second plate. As best understood the elected species of Figures 9(A)-9(D) provides lower (or first) plates 34, upper (or second) plates 33 and vertical (or third) plates 36 connected to intermediate portions of the lower plates and end portions of the upper plates. No discussion or showing of a third plate having plural ribs is found.

There is an inadequate written description of the hollow frame member arranged against another hollow frame member as recited in claim 20 wherein the friction stir weld is carried out between the end portion of the second plate of the hollow frame member and said another hollow frame member. As best understood, in the elected species of Figures 9(A)-9(D), the friction stir weld between the upper (or second) plate 33 is carried out with a joint (or forth) plate 60, not the other hollow frame member.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J. Canfield whose telephone number is 571-272-6840. The examiner can normally be reached on M-Th.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Friedman can be reached on 571-272-6842. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
